Important Proposal Information

General Provisions

- This proposal is not a stop-loss insurance policy or an ERISA plan document. Only the actual contractual provisions will prevail. Refer to your self-funded plan designs brochure for a description of options regarding self-funded plan designs with stop-loss insurance. Details are provided in the Stop-Loss Insurance Contract and the Plan Document, which are the prevailing documents and the basis for benefit payment. Neither the Stop-Loss Insurance Contract nor the Plan Document are effective without written notification from Star Marketing and Administration, Inc. Any existing coverage should remain in force until such written notification is received.
- This proposal must be presented by an agent who is licensed in the state where the Application for Stop-Loss Insurance Coverage is signed and where the Stop-Loss Insurance Contract is issued. The stop-loss insurance laws of Illinois apply.
- It is the employer's responsibility to ensure that their self-funded Plan does not discriminate in favor of highly compensated individuals (within the meaning of Section 105(h) of the Internal Revenue Code) with respect to benefits under, or eligibility to participate in, the Plan.
- If the employer offers multiple plans, the total monthly cost will increase by 4%. Impact to stop-loss insurance rates may vary by plan design to comply with state regulations. For an updated proposal, contact your sales contact.
- Employers must have 5 or more eligible employees enrolled for Star Marketing and Administration, Inc., self-funded plan designs with Trustmark Life Insurance Company stop-loss insurance coverage.
- The Affordable Care Act (ACA) requires employers with 50 or more full time equivalent employees in the preceding calendar year to offer minimum essential coverage to employees' dependent children to age 26 that is both affordable and provides minimum value, or face potential penalties.
- The health plan costs presented in this proposal are valid only for the proposed effective date. The health plan costs are established based on case characteristics of the employer and may be adjusted based on the health status and/or claims experience of employees and dependents of the employer for which this proposal is being generated. Adjustments for increased age occur only when the health plan costs are recalculated at the beginning of a new plan year. If this employer does not qualify for the health plan costs shown in this proposal, higher costs may apply.
- If an employer pays or reimburses all or part of employees' medical expenses below the minimum HDHP deductible, the employees are not eligible to contribute to an HSA. Please consult your tax advisor.
- Federal law requires an annual cost-of-living adjustment to deductibles and out-of-pocket limits based on changes in the Consumer Price Index (CPI); therefore, these amounts may be adjusted January 1 each year.
- Health benefits, under self-funded plan designs, for employees or spouse/domestic partners who are age 65 and over will be paid secondary to Medicare when an employer has fewer than 20 employees. Covered charges will be reduced by any benefits payable by Medicare Parts A and B. Employees and spouse/domestic partners are considered to be enrolled under both Parts A and B whether or not they are actually enrolled.

When an employer has 20 or more employees and is subject to the Social Security Act (Section 1862 (b)), health benefits, under self-funded plan designs, will be paid primary to Medicare. This will result in an increase in the monthly payment amount. An employee may choose to voluntarily waive coverage under the plan and elect Medicare as sole payor.

To determine employer size, Medicare will look at whether the employer had at least 20 employees (full- and part-time) in at least 20 weeks of the preceding or current calendar year.

- Star Marketing and Administration, Inc., will not administer benefits in accordance with any state surprise medical balance billing or similar legislation or regulations when the Employer elects or opts-in to comply with such state legislation.
